FERAS MAHMOUD

Information Technology Graduate | Entry-Level IT / Software

Jeddah, Saudi Arabia | +966 50 245 7180 | ferauthe@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Information Technology graduate (GPA 4.06/5.00) from King Abdulaziz University with hands-on experience building and testing full-stack systems using React, FastAPI, SQLAlchemy, and Oracle. Delivered process documentation adopted by real business teams during an internship, and contributed to requirements, testing, and quality assurance on a multi-team university information system. Seeking an entry-level IT or software role.

EDUCATION

Bachelor of Information Technology | King Abdulaziz University — Faculty of Computing and Information Technology | Jeddah, Saudi Arabia

Graduated June 2026

- GPA: 4.06 / 5.00
- Relevant Coursework: Network Administration & Security, Database Systems, Web Development, Software Engineering

PROFESSIONAL EXPERIENCE

Summer Intern | Talasuq | Jeddah, Saudi Arabia

Summer 2023

- Supported cross-functional operations across HR, Supply Chain, Accounting, and Sales during a structured rotational internship.
- Created process documentation using Microsoft Visio, including employee onboarding and supply chain workflows, delivered to and adopted by department teams as standing reference material.
- Supported day-to-day data organization and reporting in Microsoft Excel and Microsoft Word across multiple departments.

PROJECTS

MyFCITR — University Graduation Project | King Abdulaziz University | Saudi Arabia

2025–2026

- Contributed to a university information system as part of a 3-person team within a larger multi-team project.
- Developed and tested the Visiting Student Requests and Sehhaty Medical Reports modules, refining requirements, use cases, and workflows.
- Conducted functional testing and quality assurance, documenting test results, defects, and system corrections.
- Contributed to codebase improvements using PyCharm and AI-assisted development tools, and presented the final project to faculty.
